

Final questions for UX-HCI survey, administered between June and September 2014

Stuart Reeves
05/11/14

Opening text: This survey is part of a research project exploring in what ways academic human-computer interaction (HCI) research can be made relevant to UX / IxD professionals. The goal of the research is to develop bridges between HCI research and UX / IxD practice.

Q1: Describe your professional situation:

- Independent / self-employed
- Employed by larger UX and / or IxD-focussed agency
- Member of a UX / IxD team embedded within larger organisation
- Other, please describe:

Q2: What is your background in terms of training, academic qualifications, etc. that relate to your professional situation?

Q3: What are your main activities and responsibilities in your job role? (Check all that apply.)

- Design
- Research
- Evaluation
- Other, please describe:
- I disagree with this division of activities:

Q4: Below is a (unstructured, limited) list of a range of design / research / evaluation methods, approaches, techniques, etc. Please indicate which you use as part of your work? (Check all that apply.)

- User centred design process
- Lab based usability testing
- Field trials
- Heuristic evaluation
- Participatory design
- Expert inspection
- Interviewing (structured or unstructured)
- Think aloud
- Eye tracking
- Ethnography
- Focus groups
- Card sorting
- Contextual inquiry
- Cognitive walkthrough
- Prototyping e.g., wireframing, paper prototypes / mock ups
- Scenarios and / or personas
- Cultural probes or technological probes
- Use cases
- Other(s):
- I approach my work in a different way not described by the options above:

Q5: In general how did you learn and / or gain experience of these methods, approaches and techniques? (Check all that apply.)

- On-the-job
- Mentored
- Web / internet resources
- Academic courses
- Textbooks
- Other, please describe:

Q6: What professional communities do you consider yourself a member of?

Q7: How much contact do you have with academic research in human-computer interaction (HCI)? (Check all that apply.)

Final questions for UX-HCI survey, administered between June and September 2014

Stuart Reeves
05/11/14

- I have never heard of HCI
- I have heard of HCI but don't know much about it
- I don't think HCI research has any relationship to my work
- My background is HCI (e.g., by qualification) but I have little or no contact with HCI now
- I have attended HCI related conferences, workshops, etc.
- I have read HCI academic papers
- I have contributed to / participated in the HCI research community (e.g., publications, etc.)
