Job Title: Junior Web/Creative Developer

Job Description:
- Introduction to an eCommerce business, you will be involved in the day to day activities of running the business.
- Analysis of eCommerce systems in addition to developing improvements.
- Working in a fast moving technology company dealing with the latest products. You will be involved in product development, helping to identify the latest trends and products.
- Assisting in the development of new websites working alongside our Current Developer as well as Third Party Web design companies.
- Involvement in updating, developing and redesigning current websites, eBay and Amazon stores.
- Graphic design for promotional/web material.
- Analysis and development of online PR and direct Internet advertising – training in Google Adwords, Analytics, search engine marketing and search engine optimization.
- Assistance in design and development of external customer web sites and promotional/marketing material.
- Working alongside an award winning team - ‘Shell LiveWIRE Young Entrepreneur of the Year Finalists 2005’ and ‘StartUps Online Business of the Year Finalists 2006’.
- We are a young dynamic team that is experiencing large expansion. You will be able to follow and learn about the strategic decisions required to grow an eCommerce business.

Contact details: Please send CV and Cover Letter to Andrew Selby (Andrew@freshcube.com). If you require any further details please call 0207 871 0350.

Closing Date: 23rd February 2007 – successful candidates will be notified in March.
