MIDLANDS GRADUATE SCHOOL IN THE FOUNDATIONS OF COMPUTING SCIENCE

16-20 April 2007, Nottingham, UK

MGS 2007

Registration Deadline

1st March 2007

Director

Graham Hutton

Organiser

Henrik Nilsson

Further Information

Google MGS 2007

The Midlands Graduate School (MGS) in the Foundations of Computing Science was established in 1999, and organises an annual Spring School on the mathematical foundations of computing. It is primarily aimed at PhD students, but everyone is welcome to attend, including computer scientists, mathematicians, and participants from outside of the UK.

Programme

Roy Crole	*Operational Semantics*
Neil Ghani	*Category Theory*
Paul Levy	*Typed Lambda Calculus*
Thorsten Altenkirch	*Dependently Typed Programming*
Roland Backhouse	*Algorithmic Problem Solving*
Martin Escardo	*Domain Theory and Denotational Semantics*
Achim Jung	*Stone Duality*
Henrik Nilsson	*Advanced Functional Programming*
Colin Stirling	*Concurrency Theory*
Steve Vickers	*Topology and Logic*

Registration

The deadline for registration is **1st March 2007**, and the fee is £350, including accommodation. We also hope to have a number of free places for UK-based PhD students. Places are limited, so please register early.
