

# **AWIST 2022** ASEAN Workshop on **Information Science and Technology**

**Theme: “Impact and Influence  
of Technology & Computing”**

With technology and computing had increasingly become networked, distributed, and accessible, the boundary of what possible is only limited by our own imagination.

This workshop aimed to establish a panel of discussion on the theme of impact and influence of technology and computing, both general and specific, in one discipline or multidiscipline, and either mixed, quantitative or qualitative types of research. Thus, the scope of the topics includes, but is not limited to:

- ❖ Health, Environment, Society
- ❖ Entertainment, Well-Being, Sustainability
- ❖ HCI, Accessibility, Digitalization
- ❖ Design, Knowledge Management, Cyber Security
- ❖ Learning, Education, Pedagogy Support System
- ❖ Application Areas or Example Case Study
